

## Assembly Instructions – Host Script Version

**\*You will need to provide your guests/victims with pencils (at least one per person) at the beginning of the game and hot water around the middle of the game.**

### **Prepare Leader Envelope**

1. Fill “For the Leader” envelope with:
  - a. A1 – Creating a Superhuman
  - b. P1 – Fill in the blank
  - c. P2 – Wordsearch
  - d. P4 – Crossword
  - e. One Transparency (doesn’t matter which one)

### **Prepare Antidote Bag**

1. Fill Antidote Bag with any prize you want to include as the special vessel – candy, drink tickets, etc. (since that sweet, sweet medallion is all yours to keep!)
2. Zip bag closed and put on black lock (combo 7-8-4). In order to close lock the numbers will have to be set to 7-8-4.
3. Spin the dials back to 0-0-0

### **Prepare Skull Tin**

1. Fill the tin with:
  - a. One transparency
  - b. P7 – Missing Element
  - c. "B" Fortune Teller
  - d. Holey “G” Paper.
  - e. The Syringe – Put the letter beads in the syringe out of order. We suggest U-G-O-T-H. Then put the syringe in the tin.
2. Lock the tin with the key lock.
3. Place the key in the middle of the note pad by taping it near the top of a page near the middle of the pad. You can bend the sides a little bit to make the side gap less obvious.

### **Prepare Biohazard Tin**

1. Fill the tin with:
  - a. One transparency (doesn’t matter which one)
  - b. A2 – Fixing My Mistake
  - c. P8 – Periodic Puzzle
  - d. Put 1 refill dinosaur capsule inside the test tube, put the cap on and put the filled test tube inside. *\*If you have run out of dinosaur capsules, you can purchase them cheaply on Amazon. Also, if you are in the United States, Michael’s carries them.*
  - e. The pop out snake. Squish it down as much as you can, stick it inside keeping it compact, then quickly close the lid.

4. Put the black lock from the tin (combo 1-3-5) in the holes to lock the tin closed. In order to close lock the numbers will have to be set to 1-3-5.
5. Spin the dials back to 0-0-0

### **Pack Main Box**

1. Velcro the blacklight to the box top.
2. Unscrew the pen and place both UV notes inside then screw it back together. If you can't find the two UV notes, you can purchase UV pens very cheaply on Amazon. One note should say "1-3-5" and the other should have a picture of a diamond shape that matches the one on P3 Step 3 and say "rad manicure."
3. Put the following items in the box in order from bottom to top:
  - a. Antidote Bag
  - b. P3 – Connect the dots
  - c. One transparency (doesn't matter which one)
  - d. Both tins
  - e. Half of Petri Dish
4. Close the flaps and thread the two laces through them, then tie a knot with the laces. (You can make this knot as easy or hard as you wish!)
5. Arrange the following items on top of the flaps and then close the box!
  - a. Half of Petri Dish
  - b. Note pad
  - c. Pen
  - d. "For the leader" envelope.

### **Prepare Bonus Puzzle**

1. Put 1 teaspoon of baking soda in a small bag to be placed under your chair. If you're hosting in your own home, you can tape it up there. But if you're playing at someone's house, just have it in your pocket, and then at some point near the beginning when everyone is involved in a puzzle, just lean down to "fix your shoe" and place it on the floor under your chair.
2. Put 1 tablespoon of vinegar in a small container in a corner of the bathroom. Again, if it's your own home it's easy to do. If you're at a friend's house, make sure you use the bathroom right before the game begins so you can hide it there.
